

Global Sourcing

Defined As: Proactively integrating and coordinating common items and materials, processes, designs, technologies, and suppliers across worldwide purchasing, engineering, and operating locations.

This is how we accomplish our mission to make our customers competitive in today's International Markets. Jumping into the international sourcing market can be intimidating. AFT Fasteners removes any roadblocks, answers all your questions and helps you get started sourcing your parts. Whether you need a pallet, container or mill shipment – AFT has the solution for your business.

Advantages

- **Skilled Labor** - Foreign labor is cheaper and has become more skilled and reliable than in the past.
- **Resources** - Tap into less expensive global resources not found domestically or at domestic cost levels
- **Suppliers** - Entirely new competitive vendors and suppliers compete for your business at competitive rates to boost their economies.

Take advantage of such sources as - **China, Taiwan, Malaysia, Japan, Europe and Mexico**

MISCONCEPTION - You do NOT have to order entire containers before Global Sourcing is a benefit to you. Do not assume your quantity is too small, so contact us to look at your needs and make an experienced recommendation.

Take advantage of our "Just-In-Time" shipping options or order your hardware components for an entire year in advance to get maximum cost benefits.
